It was just another quiet night, but that changed when the ship's computer showed an intruder alert.

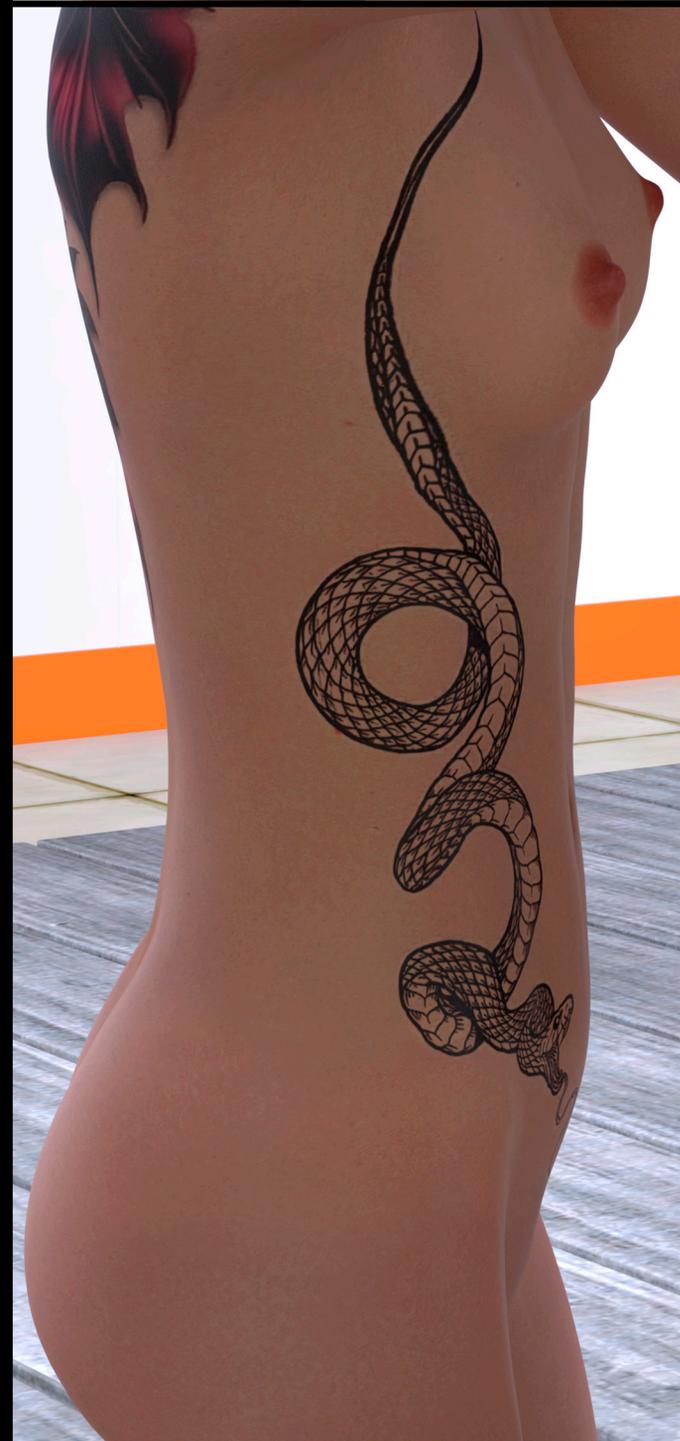

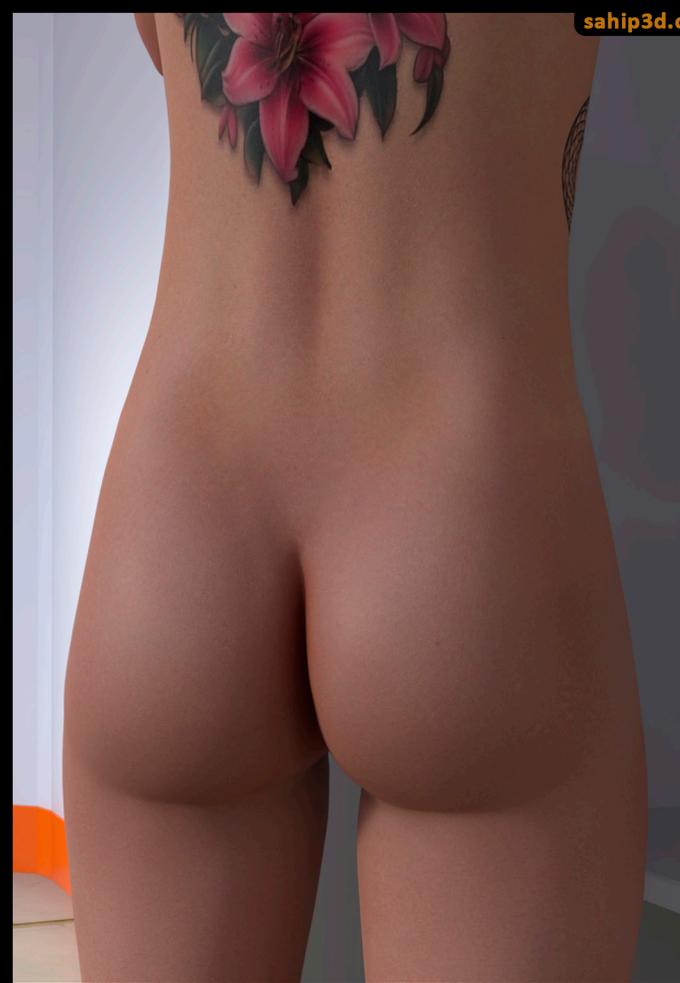

Emergency alarm ringing and "Intruder detected" warning on screen

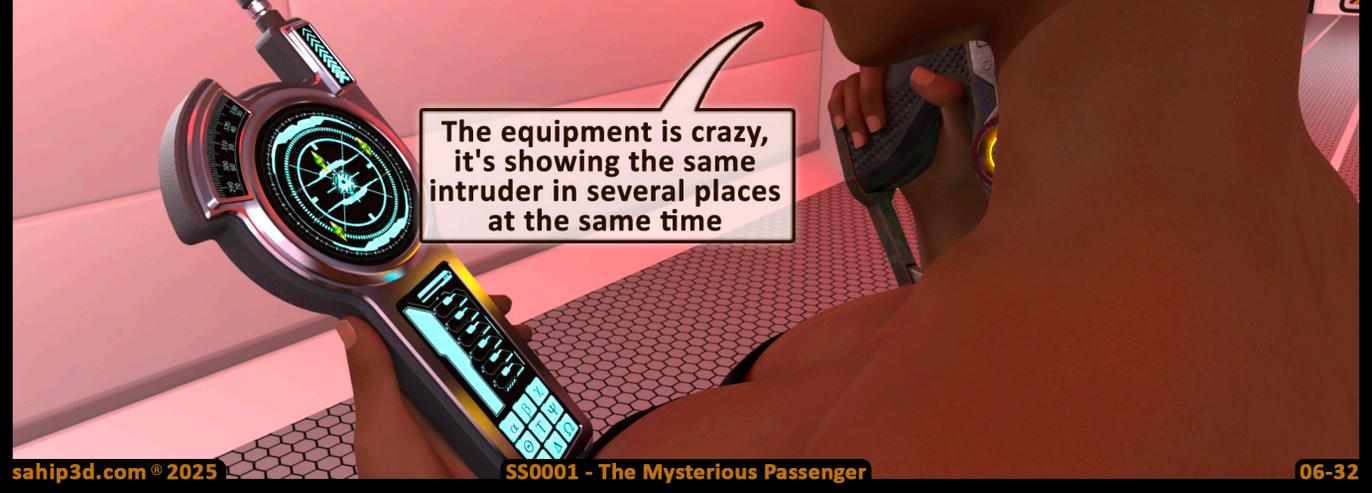

What the fuck is going on?

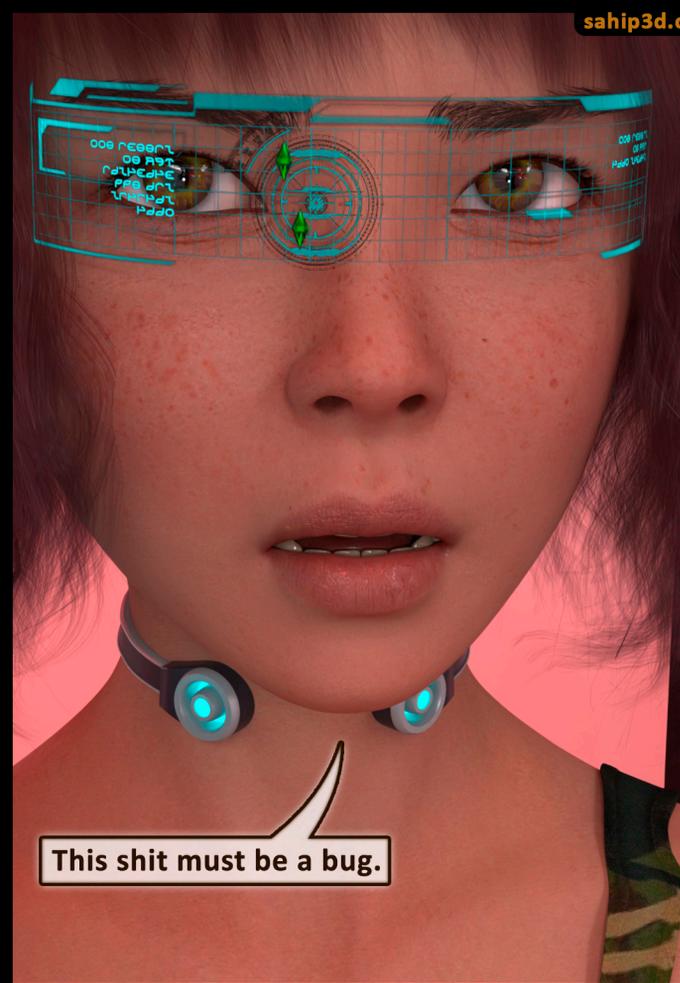

We're too fast to teleport and it's fucking space, how is there an intruder?

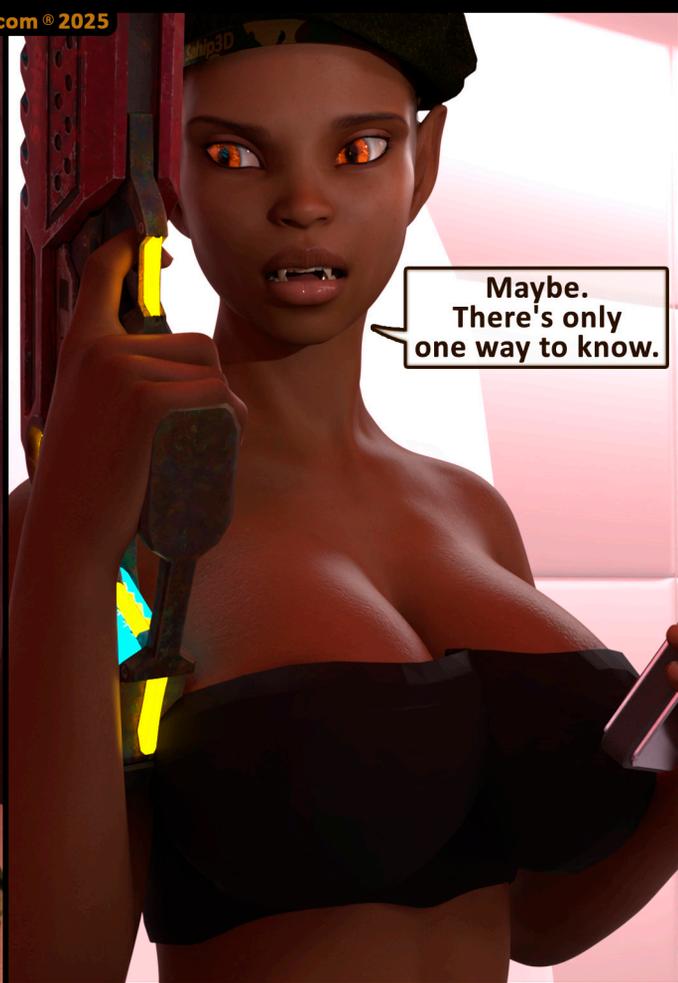

That's what we're going to find out.

The equipment is crazy, it's showing the same intruder in several places at the same time

This shit must be a bug.

Maybe. There's only one way to know.

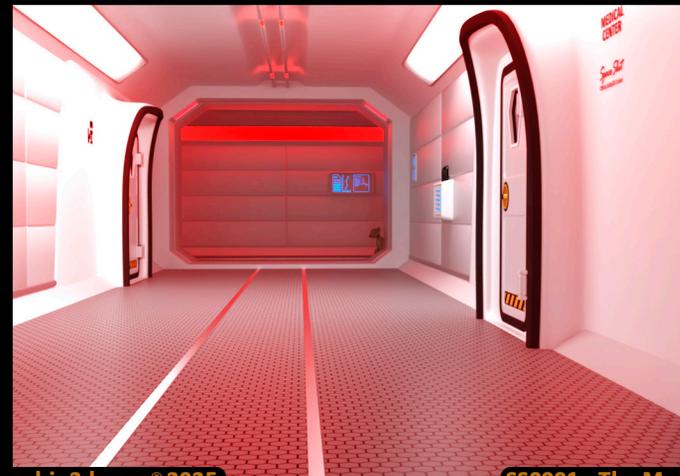

You cover the Access Area. I'll go to the Security Area.

Yes ma'am!

Fuck! I was dreaming, and I was almost cumming.

Gotcha!

Xibiu sleepy

Slut, is it safe to come closer?

Yes, Ayumi. The unknown life form has been neutralized and there is no radiation or pathogens.

Captain, I got him.

Scrawny, get the medical center ready.

Let's see what the hell this is.

Holy shit! You're small but you're heavy, huh?

And has a nice cock

The computer doesn't know the species. Have you ever seen one of these?

There must be something about him in Sahip3D's restricted system

A few minutes later

There is no information about this species in the universal database, I think this hasn't happened for about 400 years.

I've never seen one with this shape... Hard must be amazing.

For now, more questions than answers. The full test takes a few hours.

Scrawny, you had just gone to sleep when he showed up. Go rest, I'll watch him.

Thank you, Ayumi! You are a great friend.

Oh naughty girl, lol, I know what kind of surveillance you want to do. Okay, I'll let you have fun.

Sahip3D

Slut, set bed 1 to minimum height

Ok, Ayumi. Setting bed 1 to minimum height

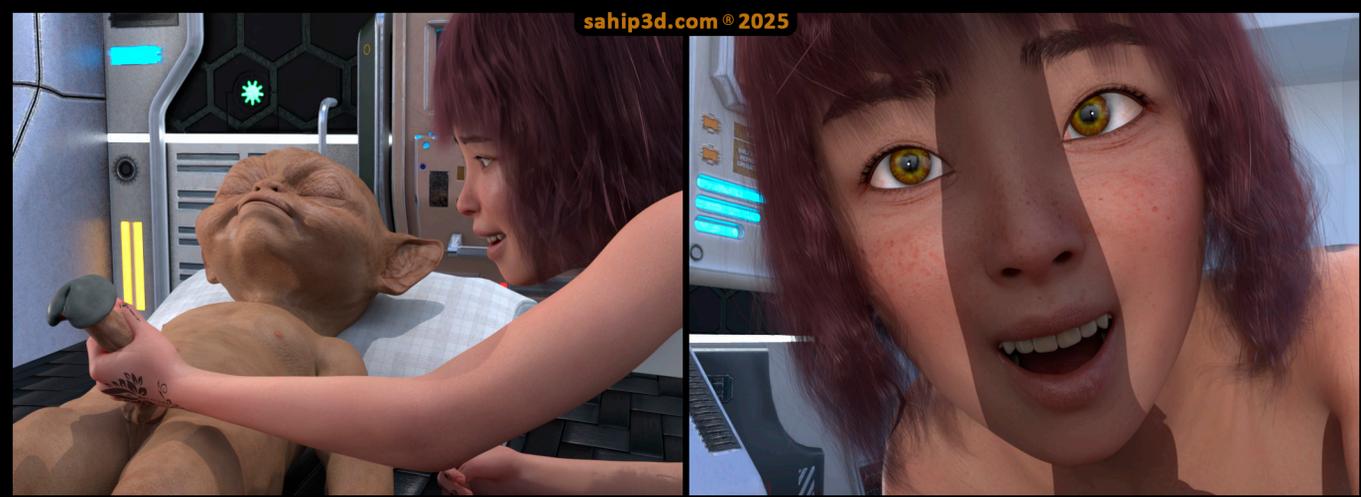

OMG I don't even know if it fits!

I'll have to work hard, but I think I can do it.

28/K

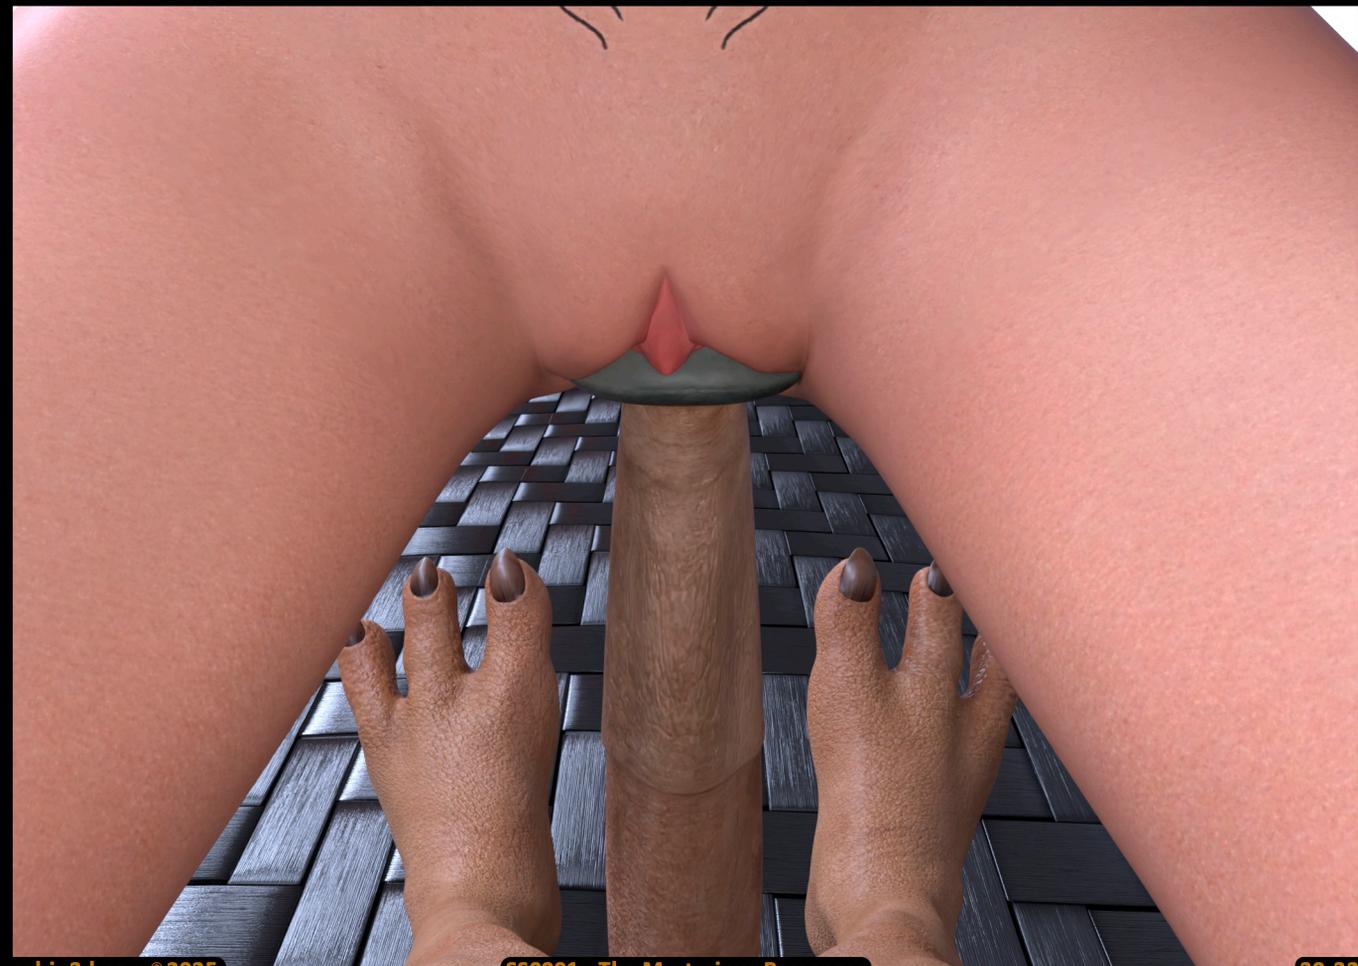

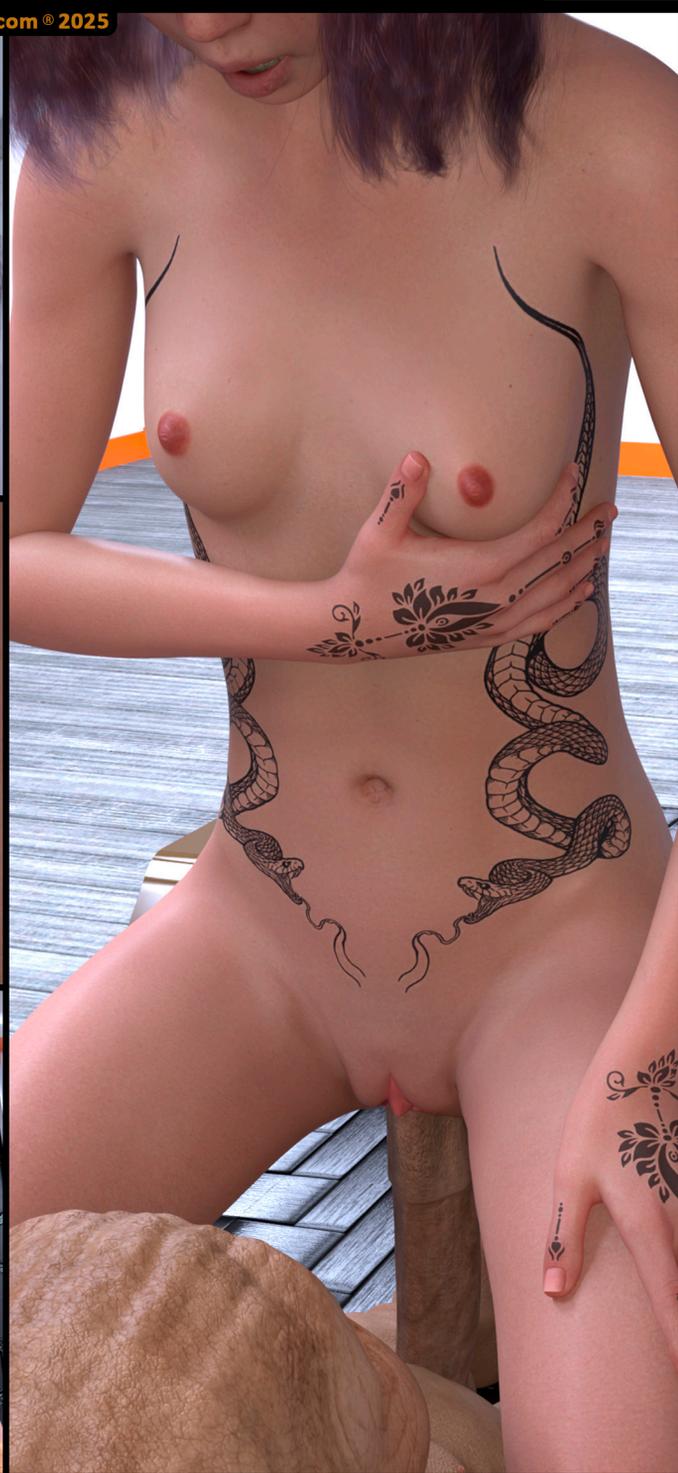

Okay, let's move because this dick isn't going to enter me by itself.

What a night, huh?
We're finally going to sleep.

And while
we sleep,
Ayumi has fun.

Damn! I lost sleep.

This lack of missions
is driving me crazy.

I'm so stressed,
I need to relax

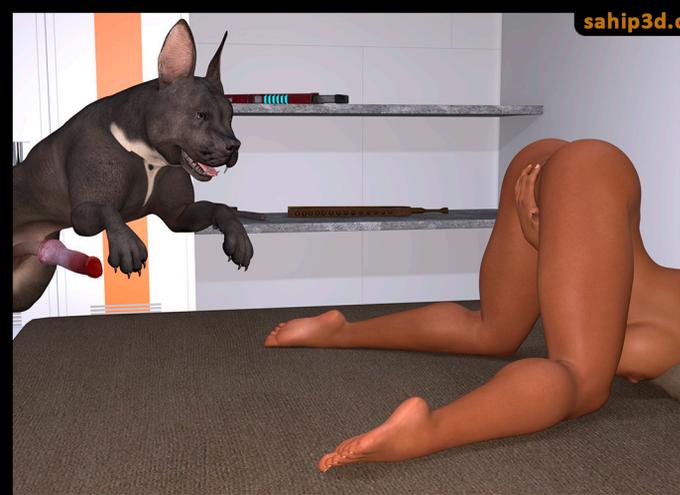

Ayumi is relaxing.

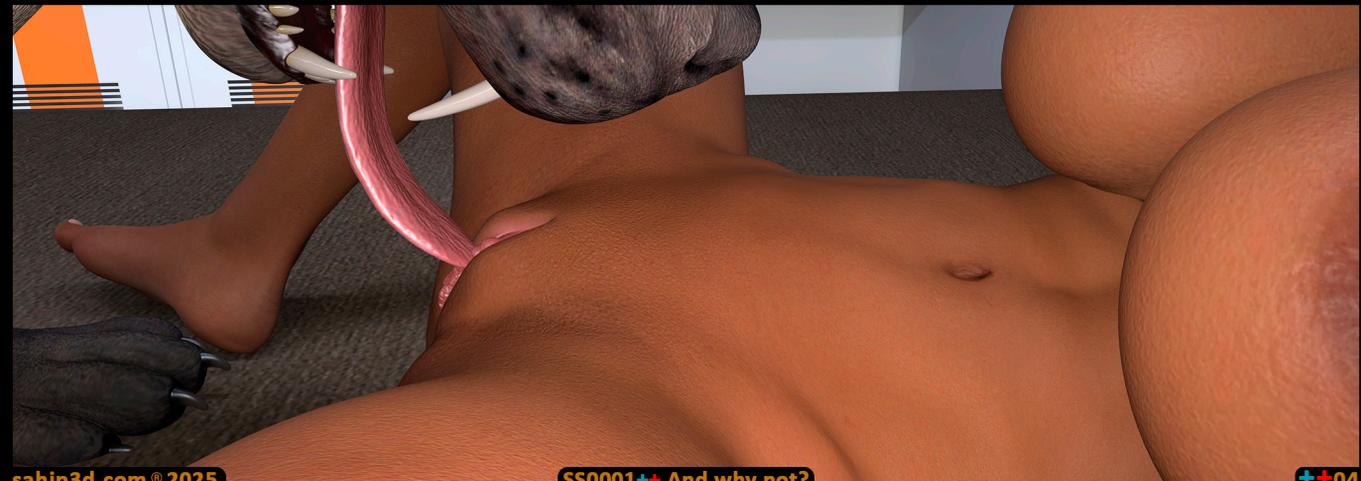

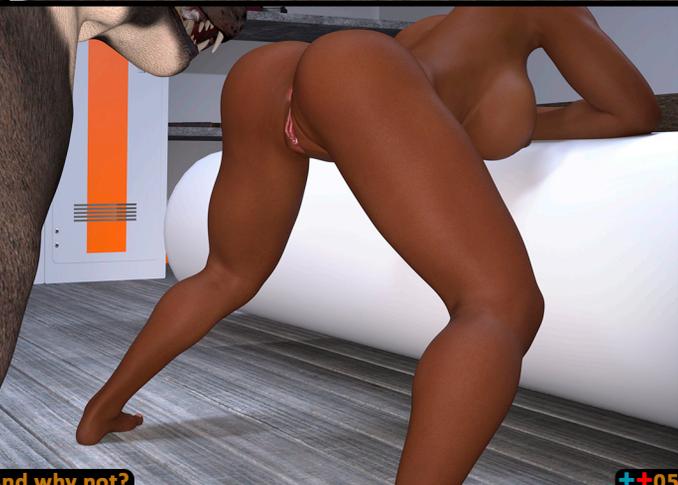

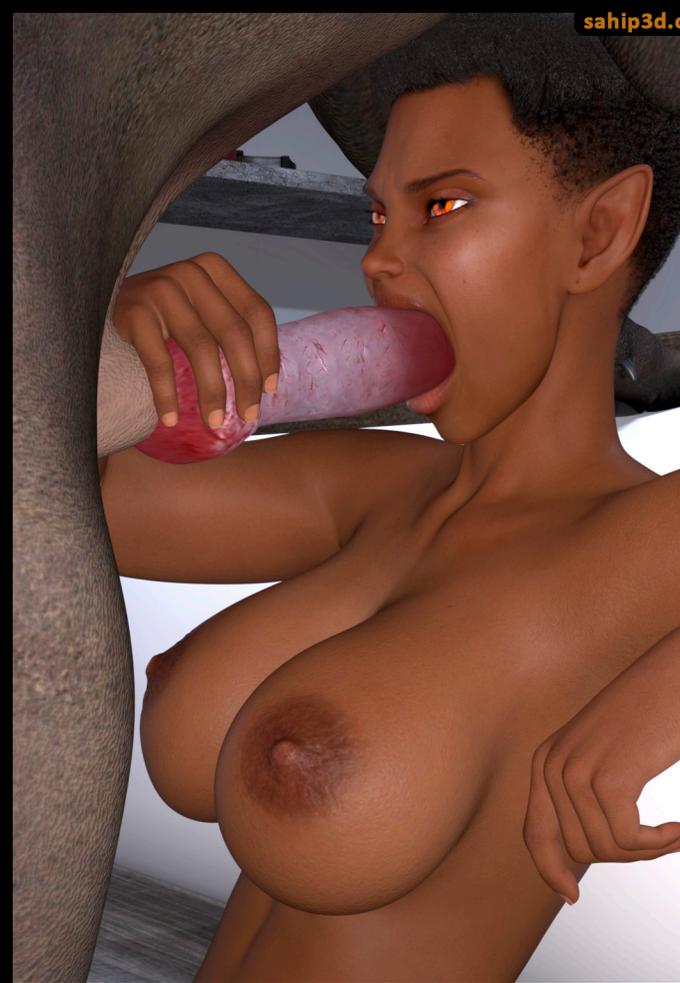

Yes, Ayumi is relaxing
with the intruder
with the nice dick.

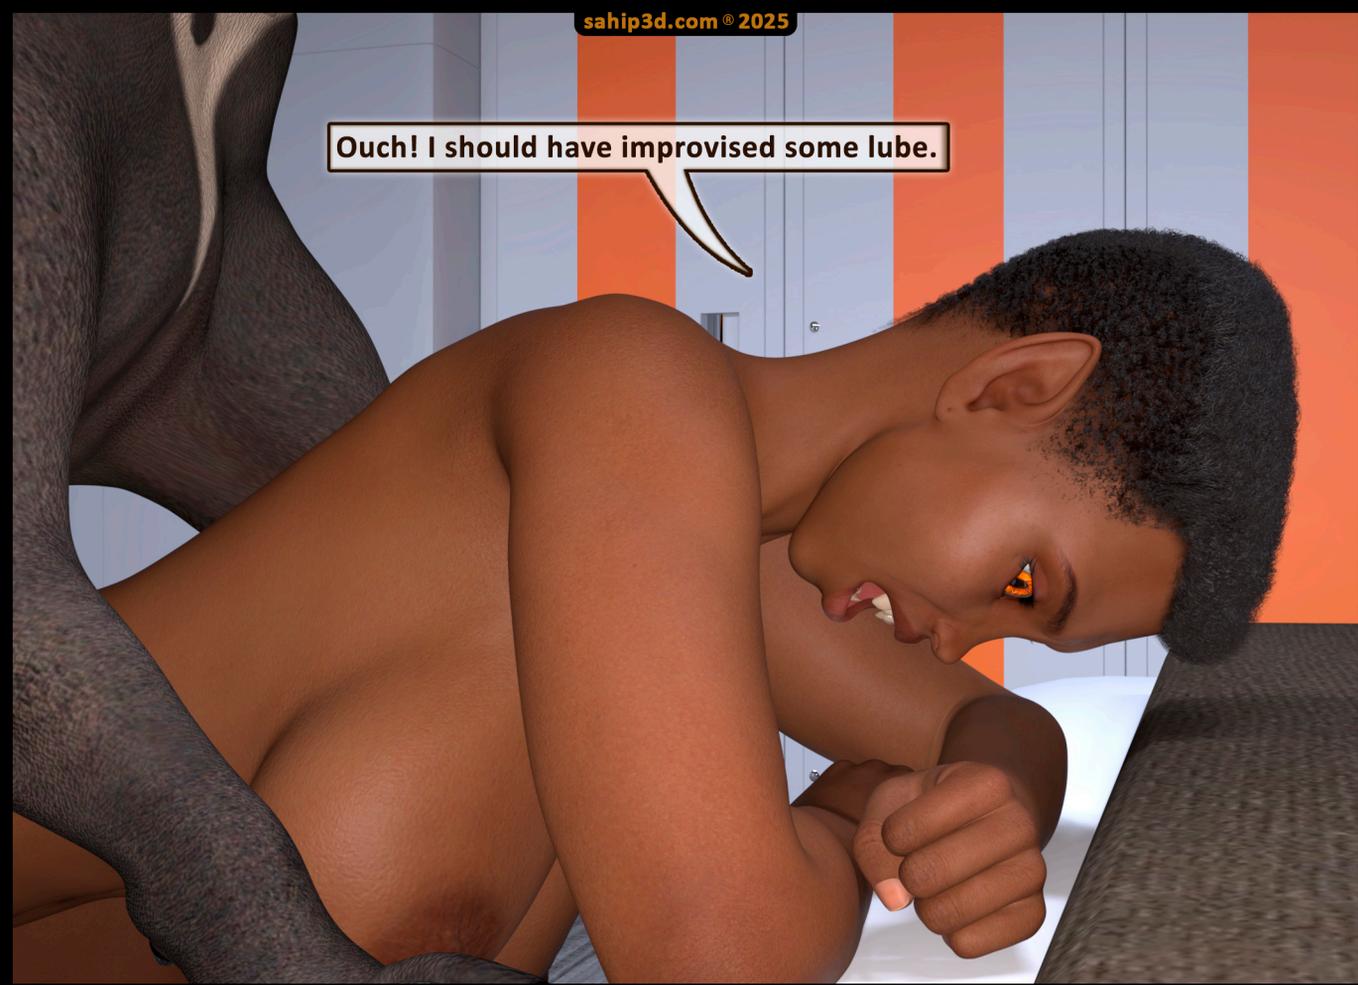

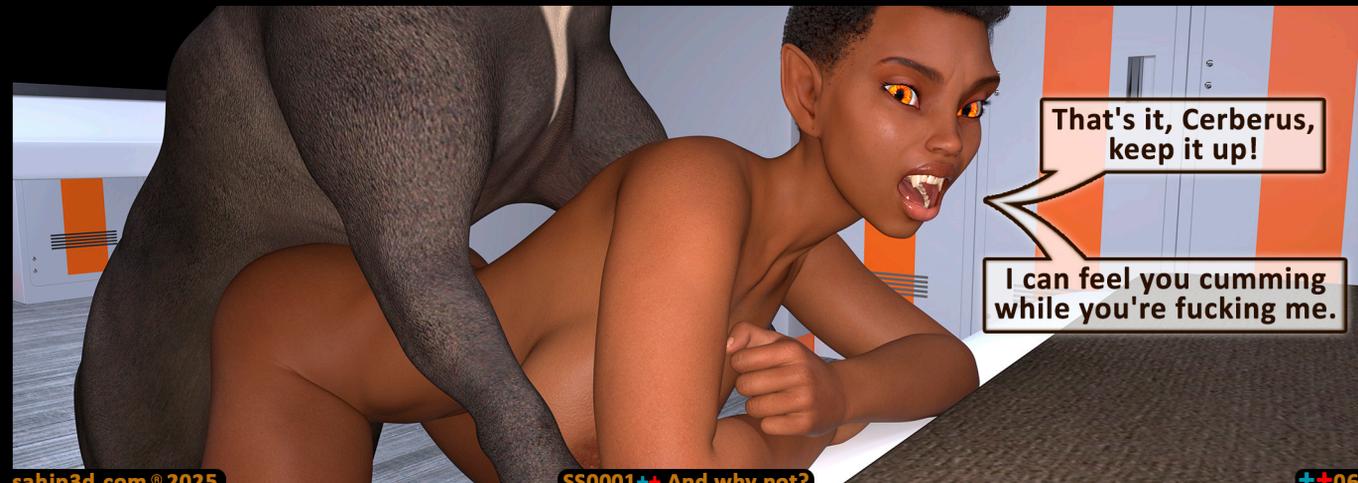

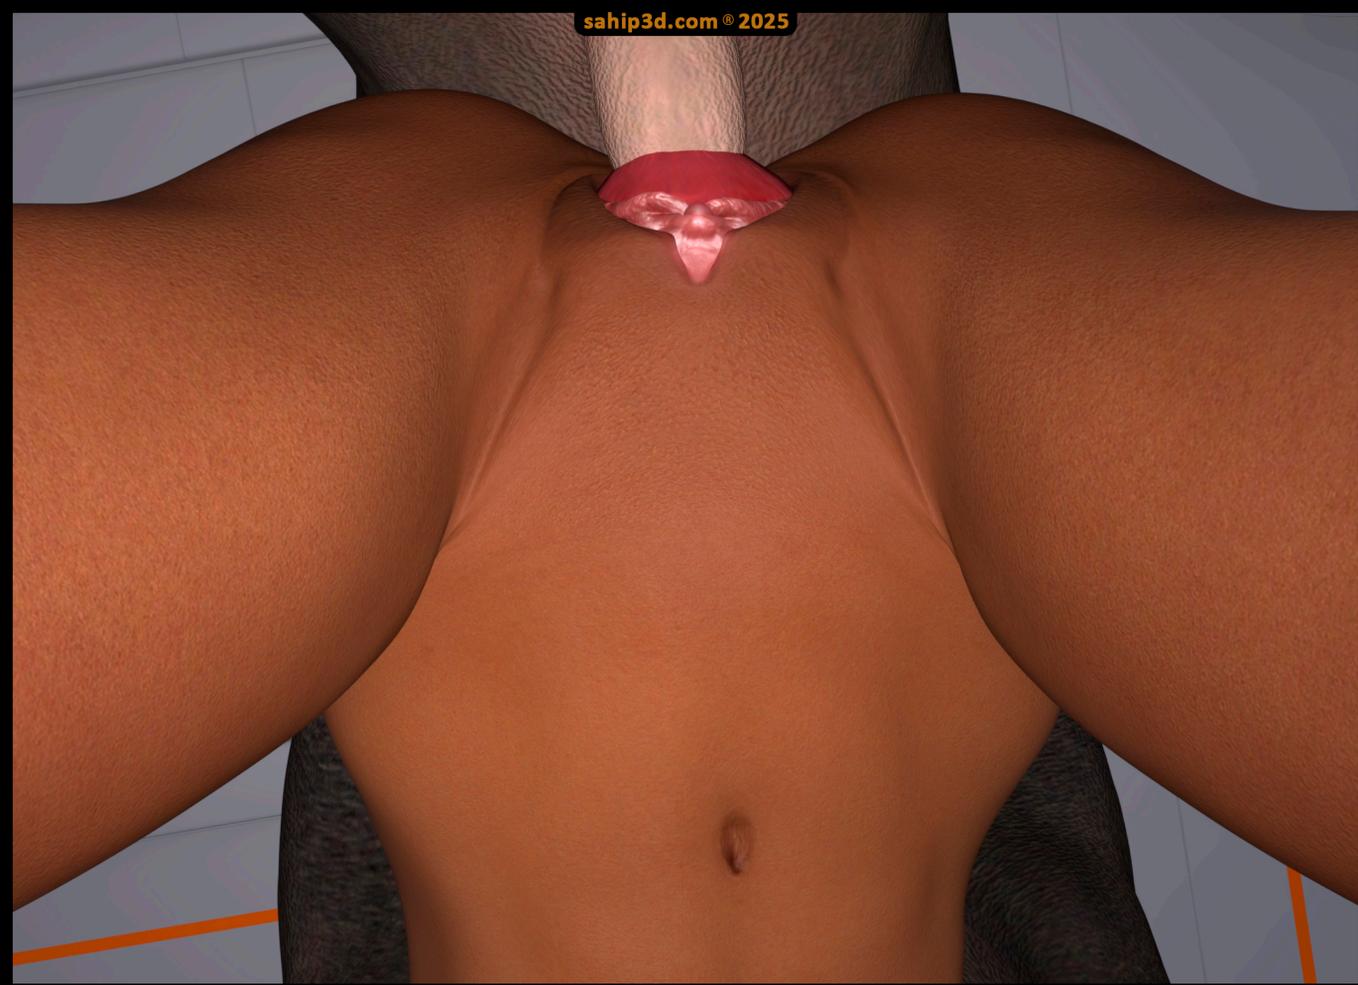

Ouch! I should have improvised some lube.

That's it, Cerberus, keep it up!

I can feel you cumming while you're fucking me.

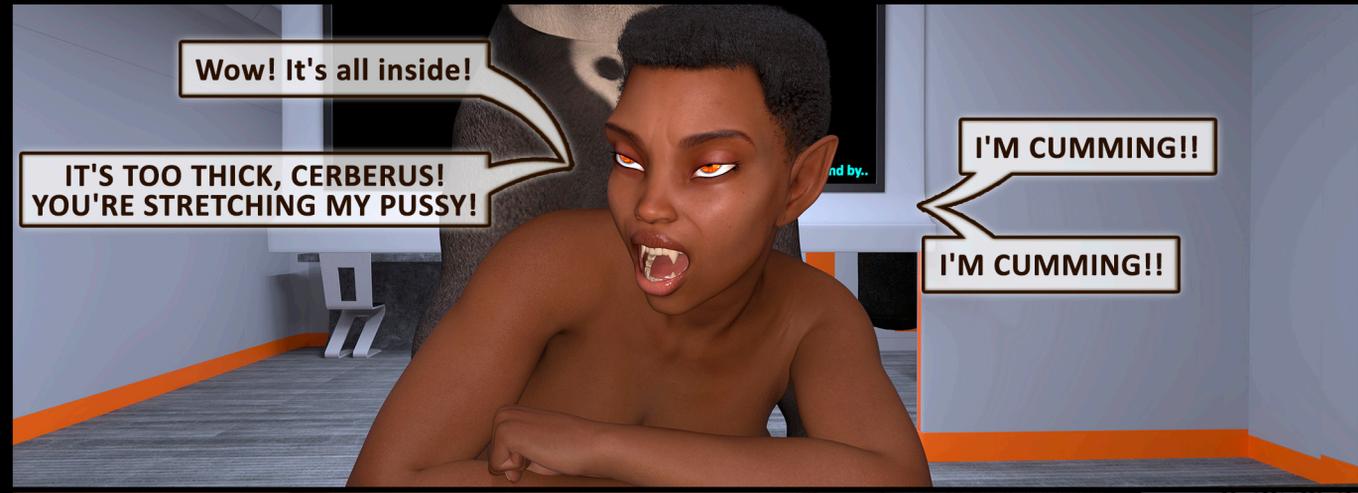

Wow! It's all inside!

IT'S TOO THICK, CERBERUS!
YOU'RE STRETCHING MY PUSSY!

I'M CUMMING!!

I'M CUMMING!!

Good night, Cerberus!
Sleep well.

I certainly will.
